The U.S. Fish and Wildlife Service in the Department of the Interior is the agency primarily responsible for fish, wildlife, and plant conservation. The Service helps protect a healthy environment for people, fish and wildlife, and helps Americans conserve and enjoy the outdoors and our living treasures. To accomplish its mission, the Service employs around 7,500 of the country's best biologists, wildlife managers, engineers, realty specialists, educators, law enforcement agents, and others who work to save endangered and threatened species; conserve migratory birds and inland fisheries; restore habitats; provide expert conservation advice to other federal

agencies, industry, private citizens, and foreign governments; and manage millions of acres of wildlife lands. The Service Directorate has made it a high priority to recruit and retain these valued employees. As part of an active career development program, the Service has decided to institute an Employee Exist Survey to collect feedback from former Service employees so that we may discover relevant issues that impact retention. If this survey were not used, there would be no way the Service could analyze the reasons for employee separation.

The information collections in this program are part of a system of record covered by the Privacy Act (5 U.S.C. 552(a)).
